EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Tomas Vasso on 1/27/2006.

The application has been amended as follows:

Claim 83, line 7:before "comprises" insert the following:

-- further --.

Claim 90, line 9:after "solution" but before "includes" insert the following:

-- further --.

The following is an examiner's statement of reasons for allowance: In consideration of the Examiner's Amendment above, and in further consideration of the prior Office Actions and responses thereto, the claim invention, as amended, is neither express disclosed nor fairly suggested by the prior art. The prior art does not disclose or make obvious a two part dialysis solution which does include acetate and in which each of the bicarbonate concentrate and the electrolyte concentrate contain a physiological amount of sodium ranging from 100 mmol/L to 173 mmol/L and the mixed solution of said concentrates further comprises about 70 mmol/L to about 130 mmol/L of chloride. Although the prior art discloses the use of two part solutions, the prior art in fact teaches away from the use of physiological amounts of sodium in the claimed ranges in both the electrolyte concentrate and bicarbonate concentrate and does not recognize the

Art Unit: 1616

advantage of including physiological amounts of sodium in the claimed ranges in both the electrolyte and bicarbonate concentrates which avoids sodium overload in the event either one of the concentrates is administered unmixed with the other concentrate (Remarks (1/9/2006), pages 5-7, Specification, page 10, 18-31).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

A facsimile center has been established in Technology Center 1600. The hours of operation are Monday through Friday, 8:45 AM to 4:45 PM. The telecopier number for accessing the facsimile machine is 571-273-8300.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Frank Choi whose telephone number is (571)272-0610. Examiner maintains a flexible schedule. However, Examiner may generally be reached Monday-Friday, 8:00 am – 5:30 pm (EST), except the first Friday of the each biweek which is Examiner's normally scheduled day off.

If attempts to reach the Examiner by telephone are unsuccessful, the Examiner's Supervisor, Mr. Johann Richter, can be reached at (571)272-0646. Additionally, Technology Center 1600's Receptionist and Customer Service can be reached at (571) 272-1600.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
